

ITA Vendor Performance Report

Note: All data contained in this report is current through December 31, 2021, with subsequent adjustments by the vendor-providers, for students graduating from ITA programs between January 1, 2020 and December 31, 2021 This report is subject to periodic updates as more students graduate from their programs and seek or obtain employment, and as data is further shared by the vendor-providers.

Definitions of Terms used in this Report

Successful Completion	The sum total of all students who have completed the program successfully, without failing or dropping out.
Awaiting Placement	The sum total of all students who have completed the program successfully and as of the run-date of this report, remain within the 180 day window to be placed, and have not yet been placed in a training related job. Note: Students who are within the 180-day window, but who have already been placed in a training related job, do not count in this number. Students placed in a non-training-related job but who are still within the 180 day window do count here, as there is still time for the provider to place them in a training related field.
Placed	The sum total of all students who, either while still within training, or within the 180 day window following training, were placed in a training-related job. A score of 'Pending' in this column means that no students have currently graduated and reached the end of the 180-day window for placement, or been placed early.
Not Placed	The sum total of all students who have exceeded the 180-day window, and were not placed in a training-related job.
Place %	The percentage of all placed students over the sum total of placed and not-placed students.
	<p><i>It is important to note that only those programs which have reached 10 total students in the placed and not-placed categories -- i.e., those which have had at least 10 students graduate successfully and then count towards the denominator of the placement percentage measure -- will have recommendations made on them to the board for possible retention or temporary cancellation.</i></p> <p><i>Furthermore, a program will not show on this report if it is not currently on the ITA Training Program list or has no successful completers/graduates as of the date of the running of this report.</i></p>

Note: This is not the same as our overall Performance Report. This report looks carefully at the 180-day requirement for placement credit for the ITA Vendor and whether a placement is related to the training received. We continue to work with customers after 180 days and they may be placed in a training-related job, which accounts for the difference between this report and our overall performance report.
